Videos: Composition: Game Creation: The Elder Scrolls IV: Oblivion Game Creation Game Development: Frostbite engine AI: Elder Scrolls Online Release date: June 2012 Launch date: December 2012 MEDIA > Press release > Book of Elden > Frequently Asked Questions > Links: [Press release] The Elder Scrolls Online is the latest game from The Elder Scrolls V: Skyrim Studio, the award-winning developer behind such critically acclaimed games as The Elder Scrolls V: Skyrim and The Elder Scrolls IV: Oblivion. It is a massively-multiplayer online role-playing game set in a vast, three-dimensional open world, allowing players to travel freely from the Imperial Province of Cyrodiil to the forsaken province of Novigrad or explore a new world. The game is the spiritual successor to the award-winning Oblivion® RPG. New to the game are the many features that Oblivion was known for but that haven't been previously available. These include real-time combat, the ability to freely customize the appearance and skills of your character, and vast numbers of online players to journey with or to fight against. Additional improvements to the game include immersive environments, a higher level of detail, weapons that react to your character's actions in real-time, and fast-travel. "Gamers are eager to play one of the most iconic fantasy universes ever created, and the team at Bethesda Game Studios has already created a great game based on our original Elder Scrolls universe," says Todd Howard, Game Director of Bethesda Game Studios. "Now we have set our sights on making the next instalment the best yet. The new technology and features we've developed for The Elder Scrolls Online will be the cornerstone for this next chapter of the Elder Scrolls story. We're very excited to announce this new title

As Alabama voters go to the polls Tuesday to pick the governor and three other statewide offices, one aspect of their polling experience is missing: They don't have a choice between Republican nominees and Democratic ones. There are only Democratic choices. By county, the slate of Democrats running on the ballot represents a slate of neophytes, poll watchers who happened to get their nominating petitions in earlier than the deadline and have therefore become eligible to run in the June 6 primary. Since the disenfranchising of provisional ballots, more than three-quarters of the state's voters have never had the opportunity to vote for the most sought after party nominees. Be they Hillary Clinton or Bernie Sanders, most Democratic voters can only vote for so many candidates. [Click here](#) to see a list of the nominees from the presidential and senatorial contests. (The ballot in some counties also includes Republican, Libertarian and Green Party nominees.) The Alabama Democratic Party has attempted several times to modify the law to expand ballot access for nonparty candidates. After the Legislature voted against it, in early 2015 Democratic Gov. Robert Bentley signed an executive order that allows minor party candidates to run in all elections, which goes into effect in July. The executive order allows minor parties to split their tickets, for example, choosing major-party and minor-party candidates. But it doesn't allow minor parties to be on the ballot in all races. The order lists a total of two openings on the ballot in 2011 and 2012, both in elections between Democratic nominees only. The party has not nominated any

candidates for any of the statewide or congressional positions since those years.
